

Stock Take

Integrated Barcode Software

Conduct Q4 Power stock takes using a hand-held barcode scanner

Use the familiar and powerful functions in Q4 Power to define and activate a Stock Take on all or any stock items

Use the Q4 Stock Take PC tool to transfer any selected, active Stock Take to a handheld device

Conduct a Stock Take using the handheld's integral bar-code reader to identify items under check and manually enter stock quantities

Use the Q4 Stock Take PC tool to upload results to Q4 Power for processing

Key features

- Define a Stock Take on all or any stock items
- Transfer any active Stock Take to a handheld device
- Conduct a Stock Take using the handheld's integral bar-code reader
- Upload results to Q4 Power for processing

Key features

Powerful control of dispatch and update

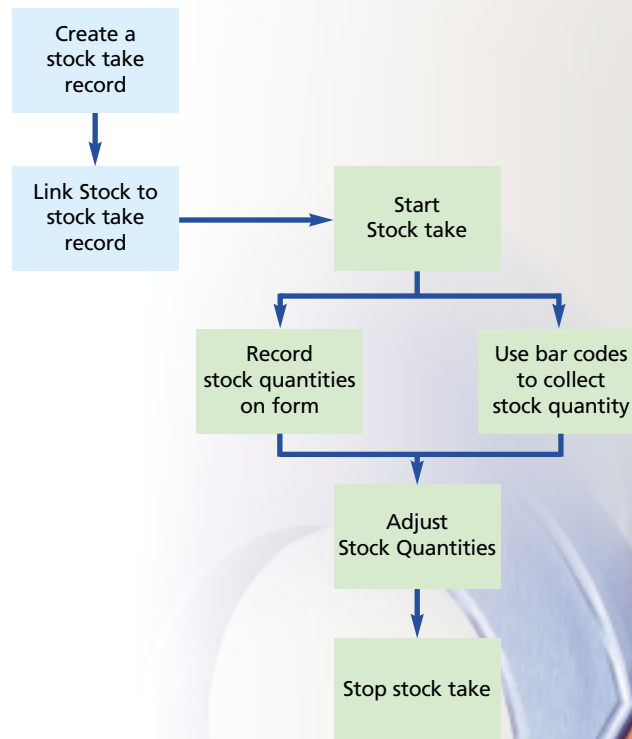

- Select any active Q⁴ Power Stock Take for transfer to the handheld.
- Repeat the transfer as often as required to the same or different handheld devices.
- Update Q⁴ Power with complete or incomplete results at any time.
- Mix results from Q⁴ Power Stock Take with manually entered figures in Q⁴ Power

Ease of use

- Capture the stock item through a single barcode scan.
- Eliminate checking the wrong items. The system will not allow scanning of items that are not actively under Stock Take. Confirm stock descriptions before entering the current level.
- Work quickly - the only key presses required are to action a scan and then enter the current stock level

* Also requires the Q⁴ Power Stock and Procurement module
